EAST EARL TOWNSHIP PUBLIC STORMWATER SURVEY

Attention residents, businesses, and municipal staff! East Earl Township needs your help! Please read the information below and complete the survey. If you have any questions regarding stormwater or this survey, please call East Earl Township at 717-354-5593.

Did you know the most common litter in streams is household trash? Plastic bags, bottles, food wrappers, and many other items can quickly be transported by wind and/or surface water runoff during storm events (stormwater).

Products such as cleaners, lawn fertilizers, and vehicle fluids are often inadvertently collected into storm drains. Organic material such as leaves, sticks, gravel and grass clippings also can be carried by stormwater into the municipal system.

SURVEY

Please circle your answers.

1. Which Best Describes You?

Township Resident

Township Business

Township Staff

2. Have You Participated In A Township Stormwater Event Before?

Yes

No

ANSWER SHEET

1. What Is The Most Typical Source Of Stormwater?
 - a. Precipitation
2. What Legislation Is Responsible For The Stormwater Program?
 - a. Clean Water Act
3. Which Best Fits The Description Of A Potential Pollutant To The Stormwater System?
 - a. Pet Waste Left On The Street

If you witness an Illicit Discharge within East Earl Township, please call 717-354-5593, or fill out the Illicit Discharge form found on the Township's website.
4. How Can People Help Reduce The Amount Of Pollutants From Entering Our Waterways?
 - a. All of The Above!

Use Fertilizers Properly and Efficiently To Prevent Excess Runoff
Store Materials That Could Pollute Stormwater Indoors
Keep Leaves And Debris From Blocking The Storm Drain
5. True or False: It is safe to dispose of paint, oil, and other household chemicals in storm drains.
 - a. False

Only stormwater should enter storm drains. Any non-stormwater discharge or dumping into a storm drain is considered an illicit (illegal) discharge.
